

To whom it may concern

Letter of Reference

Our company commercializes, markets, designs and supports highly specialized fotovoltaic systems, technologies for 'smart houses' as well as energetic management services.

ASA-A.S.Anastasiadis provides to us consulting services in a general character regarding engineering projects, advices for the implementation of our products in civil engineering works. Also in many cases designs the structural basis supporting the fotovoltaic systems.

On all the projects that which ASA have worked on for us they have become highly productive and quickly. With their advices we obtain better results. A special merit and value of the company is sincerity and confidence.

We are giving our best reference to A.S.A-A.S.Anastasiadis and we certainly recommend the firm.

Please feel free to contact me.
